

HYGIENE PACKAGING

Diapers & Feminine Sanitary Napkins,
Wet Wipes & Household Tissue Products

PLASTIC PACKAGING

Produced by United Plastic Products Company

OVERWRAP FOR HYGIENE DISPOSABLES PACKAGING

Durable and high-print quality PE wicket bags, with or without handles, for packing and promoting baby and adult incontinence diapers, feminine napkins and medical underpads

TISSUE & TOWEL OVERWRAP

High-clarity printed tissue overwrap with glossy finish for household tissue products, such as toilet tissue, facial tissue, paper towels, and paper table napkins

WET WIPES OVERWRAP

Produced by Napco Composite Packaging Technology

Printed multi-layer sachet PE film for maintaining wipe moisture and protecting wet wipes against oxygen and light

CORRUGATED PACKAGING

Produced by INDEVCO Paper Containers

COUNTER & FLOOR STAND DISPLAYS

These eye-catching counter and floor stand displays can be customized in various structures and are designed to promote and differentiate products in retail stores and supermarkets. These stands are intended for convenient display and maximize brand recognition and impulse purchasing through their innovative shapes and finishing techniques

PROMOTIONAL BOXES

Ideal to help products stand out on shelves, innovative shapes and interesting printing finishes combine to offer instant attraction and maximize brand recognition. These boxes are easy-to-handle and are fully recyclable

REGULAR SLOTTED CONTAINERS (RSCs)

Regular slotted containers are used to transport and protect a wide range of consumer products. RSCs are suitable for automated production lines and are effective in the supply chain due to their strong and lightweight material

SHELF-READY PACKAGING (SRP)

Delivered in a ready-to-sell merchandising unit, these attractive display boxes reduce shelf replenishment time due to their easy opening and optimize shelf space management

A reliable and secure supplier, INDEVCO Group has effectively served the hygiene converting industry since 1972. Our product portfolio consists of converting machinery, replacement and CNC parts; raw materials, corrugated and flexible packaging for personal care disposables and household tissue products. In addition, we produce private label products, such as anti-bacterial liquid soap, wet wipes, and hand sanitizer gel for brand extension.

Our warehousing and logistics gateways in England and the US help us combine shipments of different products and offer JIT delivery to Europe and North America, eliminating shortage or overstock at customer warehouses. Sourcing polymers from suppliers in close proximity also allows us to offer competitive prices. **Today, INDEVCO Group's over 43 manufacturing plants in 9 countries export to 80 countries.**
